KIDNAPER TAKES TEN-YEAR-OLD TACOMA BOY

Europe Awaits Action of Hitler on Spanish Crisis

DIPLOMATIC SETTLEMENT IS EXPECTED

Nazis May Skirt Edge of War Without Actually Opening Hostilities—Socialists Refuse To Release German Ship Carrying Contraband.

London, Dec. 28. (P)—Hope grew Monday in the foreign offices of Europe's great powers for diplomatic solution to the threatened spread of the Spanish civil war through German intervention despite Germany's apparent intention to skirt the edge of war with Spain.

The continent focused its attention on snow-covered Berchtesgaden in Bavaria where Adolf Hitler pondered problems which may decide the question of peace or war for Europe.

London circles pointed out the decision Der Fuehrer must make in his Christmas retreat might go far beyond any question of going to the aid of the Spanish Fascists.

Decision Due.

In effect, these sources said, Hitler faced the alternative of leading Germany back to Western cooperation for peace or plunging his country into deep isolation.

Germany will avoid war measures against Socialist Spain but probably will permit volunteer fighters to continue to sail for the battlefield, and may convoy German vessels with warships, persons in authority said in Berlin.

These persons, insisting the actual decision is up to Hitler, nevertheless outlined the most likely course for the Third Reich to follow in the near future, as:

1. In her dealings with Spain, the Reich will skirt as closely as possible along the edge of war, without actually getting into war.

2. Without specifically admitting it, Germany probably will continue quietly to permit, or even encourage, the sailing of volunteers for Spain. She will send no whole divisions of the German army there, however, for that would mean war.

May Use Fleet.

3. Germany will avoid an actual armed rescue of the seized freighter Pales, now held by the Spanish Government at Bilbao as a contraband carrier, but most likely will station a formidable part of the Reich's fleet at San Sebastian, or some other Fascist-held port, to meet and convoy any German vessel bound for Fascist Spain.

France and England hoped efforts to aid Germany's economic and colonial needs in return for non-intervention would weigh heavily.

Ship Is Held.

Socialist Spain refused Sunday night to give up the captured Nazi freighter Pales in a sharp defiance to Germany that brought a new threat of war to troubled Europe.

Germany warned of reprisals if the freighter and its cargo were not released by its Bilbao captors.

Bilbao refused: "A clear case of war contraband," said a note issued through the Spanish Embassy at Paris. The ship carried 1,500 tons of arms from Cameron County for Murder.

Manager O. J. S. Ellington of the prison system said no trace of the prisoners had been found.

Missing Child's Pet Keeps Close Vigil

Tacoma, Wash., Dec. 28. (P)—A lonesome cocker spaniel puppy sniffed through shrubbery surrounding the W. W. Mattson home Monday, one of the most determined searchers for kidnaped Charles Mattson, 10.

The puppy refused to be coaxed without his young master.

Each time officers went to the door of the home to refuse entry to reporters and others Sunday night, the dog dashed with them and sniffed at the newcomers' shoes. Each time he returned disconsolately to his corner.

SPEAKERSHIP CONTEST IS NARROWED TO THREE

Washington, Dec. 28. (P)—The list of active candidates for the House Democratic leadership narrowed to three Monday as friends of Representative Mead, Democrat, New York, said he was out of the race.

Still in the battle, the bitterest for many a session, were Representatives Rayburn, Democrat, Texas, and O'Connor, Democrat, New York, with Representative Rankin, Democrat, Mississippi, claiming enough votes to "tie up" the scrap on the first ballot.

House Democrats will caucus next Monday to elect their floor leader and renominate William B. Bankhead for Speaker.

Both O'Connor and Rayburn have been claiming sufficient votes to win on the first ballot. If all 333 House Democrats take part, 167 votes will be needed for a victory.

So many moves and counter moves have entered into the contest that many neutral observers are willing to go no further than predicting the race probably will be close.

Rayburn forces, nevertheless, were counting on some New York strength. They were figuring, too, on 26 of 27 votes from Pennsylvania, although Representative Nichols, Democrat, Oklahoma, an O'Connor campaign manager, has asserted the Texas will get no more than ten.

TRUSTIES ESCAPE TEXAS PRISON ON HORSEBACK

Huntsville, Dec. 28. (P)—Three trusties rode horseback to freedom from the Texas prison system Sunday, thwarting pursuit by bloodhounds. One escaped from the Harlan farm near Richmond and the other two from the Blue Ridge farm.

The escaped prisoners were Ernest Herring, 23, of Groesbeck, serving six years for burglary and theft from Robertson and Limestone counties; Juan Yeagera, 27, of Tirola, serving 25 years for murder from Refugio County; Guillermo Salazar, 25, of San Benito, serving 15 years from Cameron County for Murder.

Manager O. J. S. Ellington of the prison system said no trace of the prisoners had been found.

GREENVILLE COACH HELD IN WICHITA FALLS CRASH

Wichita Falls, Dec. 28. (P)—Milton (Speedy) Moffett, head football coach at Greenville High School, was released under a \$200 appearance bond in City Court here Monday in connection with an automobile accident here Saturday night.

Police Chief George H. Hodges said further investigation will be made as to the cause of the wreck in which Moffett's automobile is supposed to have crashed into another machine. Moffett was released from a hospital Monday. He suffered a slight brain concussion and minor bruises.

WICHITA COUNTY PIONEER DIES SUDDENLY AT HOME

Wichita Falls, Dec. 28. (P)—Thomas E. Ragsdale, 80, pioneer Wichita County resident, died suddenly at his home in Wichita Falls Sunday night. In failing health for the past few years, Mr. Ragsdale had complained of a cold early Sunday and gone to bed shortly after, according to his family.

Born in Honey Grove in 1856, he moved to Wichita County in 1886. For several years he was Deputy County Tax Assessor and was elected to the office of Tax Assessor in 1916. He was reelected in 1918. He was a member of the Methodist Church.

Surviving are the widow; three sons, Robert of Villa Green, Colo.; Roy of Wichita Falls, and T. E. Ragsdale, Jr., of Fort Worth; three daughters, Mrs. M. G. Langford and Mrs. E. D. Hipp of Wichita Falls, and Mrs. Carl Moore of Lubbock.

Funeral arrangements were incomplete Sunday night.

Coal Miners Strike.

Doncaster, York, Eng., Dec. 28. (P)—Eight thousand workers in coal mines struck Saturday in sympathy with 3,000 other miners who laid down their tools six weeks ago after a wage dispute with operators.

CLUE TRACED AS 12 LOST ON AIR LINER

Power Failure at Ranch Offered as Tip to Possible Crash After Pilot Calls for Beacon Light Within 15 Miles of Burbank, Calif.

Burbank, Calif., Dec. 28. (P)—Three sister ships of United Air Lines flew northward into storm-threatening skies Monday, hunting the transport with four women and eight men which vanished Sunday night a few miles from Union Air Terminal here.

Twelve hours overdue, the lost airliner, its radio silenced in bad weather, was feared crashed somewhere in rugged country lying on its route from San Francisco.

A regularly-scheduled airliner, and two surplus transports piloted by United's men, hopped off here a few minutes after 7 a.m. (P. S. T., 9 a.m. Central Standard time).

They were instructed to make a detailed and careful check of the Santa Susana and Tachacapi Mountains areas, the first plane then proceeding to San Francisco.

Meanwhile, at least 15 more ships were mobilized by air-line officials, along with a fleet of 20 automobiles, for extending the search if necessary.

A southbound transport from Seattle landed here at 5:30 a.m., the pilot reporting no glimpse of the missing plane, No. 34, as he zigzagged on his scheduled course.

House Democrats will caucus next Monday to elect their floor leader and renominate William B. Bankhead for Speaker.

Both O'Connor and Rayburn have been claiming sufficient votes to win on the first ballot. If all 333 House Democrats take part, 167 votes will be needed for a victory.

So many moves and counter moves have entered into the contest that many neutral observers are willing to go no further than predicting the race probably will be close.

Rayburn forces, nevertheless, were counting on some New York strength. They were figuring, too, on 26 of 27 votes from Pennsylvania, although Representative Nichols, Democrat, Oklahoma, an O'Connor campaign manager, has asserted the Texas will get no more than ten.

BODIES OF MEN IN CRASH OF PLANE IN IDAHO FOUND

Spokane, Wash., Dec. 28. (P)—The official searching party Sunday reported finding the bodies of two Northwest Airlines pilots, thrown clear of the wreckage of their mail plane on a mountainside 15 miles south of Kellogg, Idaho.

The first definite word of the fate of the pilots came by fire service radio from the wreck scene, where salvagers recovered 500 pounds of Christmas mail from the big plane that crashed on mile-high Early Creek ridge Dec. 18.

In reply to the question "were the bodies thrown clear?" the radio station on the spot said "yes."

The answer cleared up varying reports as to whether the bodies of Pilots Joe Livermore and Arthur A. Haid had been seen in the crushed cabin when a searching party finally reached the scene Sunday.

ADOPTED SON OF J. G. HARDIN DIES AT WICHITA FALLS

Wichita Falls, Dec. 28. (P)—Orin Lee Clark, 11, son of Mr. and Mrs. O. L. Clark of Burkhardt, died of pneumonia Sunday evening at 6:45 o'clock in a Wichita Falls hospital. A grandson of J. G. Hardin, Burkhardt's philanthropist, the boy had been a patient at the hospital since Dec. 15 when he underwent an operation for appendicitis. He later contracted pneumonia and had been in a critical condition for several days.

Mr. Clark is the only adopted son of J. G. Hardin who has endowed several colleges and universities in Texas and for whom the Hardin Junior College in Wichita Falls was named. Mr. Clark is a member of the board of trustees of several Baptist colleges in Texas and one of the members of the board of the trust fund which endows these institutions. Besides his farming interests in the county he is also a member of the Burkhardt school board.

LAST OF OLEARY FAMILY IN CHICAGO SUCCUMBS

Chicago, Dec. 28. (P)—Mrs. Catherine D'Leary Ledwell, 70, last member of the O'Leary family whose cow, some say, started the Chicago fire, died of heart disease Friday night at her home. Mrs. Ledwell always denied the legend that the O'Leary cow kicked over a lamp in their barn and touched off the great blaze of 1871.

She declared they first learned of the fire at 8 o'clock when Dennis Sullivan, "the one-legged drayman from next door," discovered it in the barn.

Eskridge said he and his companions had been to a dance at the Cotton Palace. A heavy rain was falling, he said, and he missed his way, running the car over the bank of the swirling creek into eight feet of water. Eskridge said he was also blinded by lights at the entrance of the Cotton Palace park.

The car was rolled over several times as it was swept downstream.

The bodies of Haug and Miss Holmes were recovered six hours after the accident, 13 blocks downstream.

BOY AND GIRL SAVED AS CAR PLUNGES INTO SWOLLEN STREAM

Chicago, Dec. 28. (P)—Two young persons were drowned and two others rescued when the car in which they were riding plunged into the rain-swollen waters of Waco Creek Sunday.

James F. Haug, 24, and Miss Dorothy Holmes, 17, both of Marlin, were drowned when they were trapped in the rear seat of the sedan in which they were riding. C. B. Eskridge of Marlin and Miss Jane Singletary of Bryan were also in the car.

Eskridge, driver of the automobile, dragged Miss Singletary from the front seat and swam to safety after the car had washed a hundred feet downstream.

The 15 organizations whose presidents have served on the judges committee for the past four years and who will be asked to serve again, are: Rotary Club, Optimist Club, Lions Club, B. & P. W. Club, Vernon Chamber of Commerce, Vernon Junior Chamber of Commerce, Vernon School system, Ministerial Alliance, City Council of P. T. A., County Federation of Women's Clubs, American Legion Post, American Legion Auxiliary, Community Service Association, Bar Association, Medical Association.

Any resident of Wilbarger County is eligible to submit names of persons to be considered for the 1936 award, and any citizen of the County is eligible for consideration for the honor.

The award will be conferred during the year of 1936.

Persons submitting names to be considered for the award will be required to present a statement of facts in writing giving the reasons for asking consideration of such persons for the honor.

Each statement should set forth the fullest possible explanation of the civic activities performed by the person whose name is submitted for the judges' consideration.

This information will be very helpful to the judges in making the decision, it was pointed out.

Deadline Fixed.

Elsewhere in this issue of The Record a coupon is published for the convenience of those wishing to submit names for consideration. The coupon, together with the written statement of facts concerning the 1936 community service record of each person suggested, must be mailed or delivered to the Vernon Chamber of Commerce offices in the courthouse, Chairman Sherill said.

This should be done without delay, he stated, adding that in an event

which a statement be considered

which is not received before 5 o'clock Monday morning, Jan. 11,

471,727,25.

Position of Treasury.

Washington, Dec. 28. (P)—The position of the Treasury on Dec. 23:

923,510,357.74; customs receipts,

\$85,000; appearance bond following the accident.

Leader of "Gold Shirts" to Stay Out of Mexican Politics

El Paso, Texas, Dec. 28. (P)—Nicolas Rodriguez, exiled leader of the Gold Shirt in Mexico, told friends when he left here Wednesday that he "did not intend to deal in Mexican politics."

Rodriguez said his visit to Laredo and San Antonio was purely personal.

Possibility of his trip having a connection with gathering of troops in Mexico across from Laredo was discussed in border cities late Saturday night.

Deadline Fixed.

PARDON DUE REBEL CHIEF

SPECIAL ACTION MAPPED TO RESTORE CHANG TO MILITARY COMMAND

Nanking, Dec. 28. (P)—Marshal Chang Hsueh-Liang, it was believed Monday, will be restored to command of the armies he led in revolt against Generalissimo Chiang Kai-Shek and the civil crisis his capture of the Premier precipitated will soon be forgotten.

Chiang was reported already to have told his erstwhile captor, who in a sudden turn of events voluntarily gave himself up, he would be returned to Sianfu, seat of the rebellion, and his military post.

Legally, the Marshal is "guilty of treason and should suffer a traitor's punishment," Foreign Minister Chang Chung said, explaining the situation, "but his release of the Generalissimo unharmed has entitled him to consideration."

Authorities believed the Premier's recommendation for leniency would be accepted by the Government but to satisfy the requirements of justice Chang would be condemned and then given a special pardon.

Fatigued by his captivity, Chiang declined public engagements and rested under medical supervision.

ARKANSAS CONVICT TAKEN IN ST. LOUIS SHOOTING

St. Louis, Dec. 28. (P)—Carl Janna-way, Arkansas convict who bears a resemblance to Claude McGee, southeastern Missouri convicted murderer who escaped from jail, was a prisoner Monday after a gunfight with a St. Louis policeman.

Janaway, 25-year-old escaped robber and kidnaper, was captured Sunday after wounding Patrolman Edward Schulz in the downtown district.

He told authorities he had been "living in trees" in the Ozarks and had staged at least 10 robberies since escaping last April from a prison farm at Tucker, Ark., where he had been serving a sentence for burglary and kidnapping.

Janaway, police said, shot Patrolmen Schulz in both legs when the officer tried to question him. After wounding Schulz he attempted to board a passing automobile but fell off.

He started toward an approaching taxicab driven by Cliff Hugh Squires, but Squires, instead of stopping when the convict pointed a pistol at him, stepped on the accelerator and the cab knocked Janaway down.

Bark of the cinchona tree yields quinine.

COTTON

New York.

New York, Dec. 28. (P)—Cotton futures opened firm, 6 to 16 points advance on higher Liverpool cables and active trade and foreign buying Jan. 12-25; March 12-27; May 12-38; July 12-35; Oct. 12-25 Dec. 12-11.

Apprehension over the European situation as a result of the English and French notes to Germany stimulated heavy foreign buying. In all commission houses were active buyers. All positions sold to the highest level for the current season and to the best prices since last July.

Offerings were limited to realizing and light hedging. It was first notice day for January contracts and the issuance of fourteen notices checked the initial advance in the spot month. However the total put out was smaller than had been anticipated.

January shortly rallied from 12-45 to 12-55 while March advanced from 12-47 to 12-54, with the list generally up for net gains of from 15 to 17 points. Late in the first hour March was selling at 12-51 and other prices were within 3 to 6 points of the best.

Liverpool said there was general buying in that market with contracts scarce.

New Orleans.

New Orleans, Dec. 28. (P)—Cotton advanced sharply at the opening today, gaining more than 75 cents a bale under active trade and speculative buying.

The gains were general in all positions. March opened up 8 points at 12-40, and then moved higher to 12-49 before the end of the first half hour.

May reached 12-45, and advanced 17 points while July at 12-35 was up a similar amount.

The good rally was attributed to stronger foreign markets, bullish reports from the cotton cloth position and threats of war in Europe.

Today was first notice day for Jan. and tenders for 900 bales were issued in that position, but they did not weaken the option and it moved up with the rest of the market.

Liverpool.

Liverpool, Dec. 28. (P)—Cotton, 1,000 bales, American nil. Spot moderate business done; prices nine points higher; quotations in pence: American, strict good middling 7.85; good middling 7.55; strict middling 7.25; middling 7.10; strict low middling 6.85; low middling 6.28; strict good, ordinary 6.05; good ordinary 5.78. Futures closed steady. Dec. 6.85; Jan. 6.85; March 6.86; May 6.84; July 6.55.

PRODUCE

Chicago.

Chicago, Dec. 28. (P)—Poultry, live, 25 trucks, firm; hens 4½ lbs, up 18, less than 4½ lbs. 14; Leghorn hens 12; springs, 4 lbs, up Plymouth and White Rock 18, less than 4 lbs. Plymouth and White Rock 17; Leghorn chickens 12; roosters 12; Leghorn roosters 11; turkeys, hens 22, young toms 16, old 14; No. 2 turkeys 14; ducks, white 4½ lbs, up 17, small white 15.

Dressed turkeys firm; hens young 22, old 19½; toms young 18 lbs, up 21, less than 18 lbs. 21½, old 18½; No. 2 turkeys 16; Southwestern turkeys 20-21½.

Butter, 17.50¢, firm; creamy-special (85 score) 34-34½; extras (92) 36½, extra firsts (90-91) 35½; firsts (88-89) 32-32½; standards (90 centralized carols) 33½.

RANGE PROGRAM FOR WEST TEXAS MAPPED

Washington, Dec. 28. (P)—Cully Cobb, southern regional director for the Soil Conservation Act, said Monday he hoped to send to Secretary Wallace this week a new range program for Western Texas and Oklahoma.

"I think we may have the final draft ready not later than Thursday," Cobb said, "and the full plan ought to be announced shortly after the Secretary gives his final approval."

Cobb declined to disclose any details of the program, explaining that several Agriculture Department representatives were concluding their surveys in Texas Monday and Tuesday, under instructions to make wire reports to the Department here.

Cobb would not say whether the Texas-Oklahoma program would conform closely to the scheme evolved earlier in the year for 11 Western states, explaining "there is a vast difference in the range problems of these areas."

Broad Price Advance
IN COMMODITIES NOTED

New York, Dec. 28. (P)—Responsive to sharp upturns of Liverpool quotations, the Chicago wheat market scored material early gains today after an irregular start. Reports of excessively wet weather in Australia, adversely affecting harvest operations, was a stimulating factor.

Opening 4¢ off to 1½ cents up, December 14.14-15%, May 1.56-1.57%. Chicago wheat futures soon rose all around. Corn started 2½-3% higher, December 1.10-1.11%, May new 1.06-1.07%; and held near these limits.

LIVESTOCK

Chicago.

Chicago, Dec. 28. (P)—(U. S. Dept. Agr.)—Hogs 25,000, active; 15-25 higher than Thursday's average; top 10.65; new ten year high for December; bulk good and choice 170-300 lb. 10.40-60; sows around 10 higher; mostly 9.65-10.00.

Cattle 15,000, calves 2,000; steers and yearlings steady but slow; weighty steers in broad demand; prospects steady to weak following last Thursday's sharp advance on all grades; top 18.00; best yearlings 12.75; 1400-1500 lb. choice steers 11.00; choice kinds absent; runaway market on bulls; bulky 25 higher; weighty bulls selling actively up to 6.00 and better.

Rail Gains Noted.

Chicago, Dec. 28. (P)—Western Railroads will end the year 1936 with a 21 per cent increase in passenger revenues over the comparable 12 months of 1935. This statement of substantial increase in rail patronage was issued by Hugh W. Siddle, Chairman of the Western Passenger Association. "It compares with an 8.96 percentage increase '35 over '34 and 2 per cent advance in '34 over '33."

Acting Postmaster Named.

Washington, Dec. 28. (P)—Acting Postmaster General W. W. Howes announced Monday appointment of the following acting postmaster: Curtis McKenzie, Alba, Texas.

Highway Project Approved.

Washington, Dec. 28. (P)—The Public Works Administration announced Monday approval of highway improvement projects in San Patricio County, Texas, involving grants totaling \$272,152. Secretary Ikes said the grants would make possible construction costing \$604,700.

THE VERNON DAILY RECORD, VERNON, TEXAS

BRITAIN AIRS PATROL PLAN

NEW START LAUNCHED TO ISOLATE SPANISH WAR IN PENINSULA

London, Dec. 28. (AP)—A six-power naval patrol, designed to "keep volunteers and arms out of Spain," is under consideration by British officials, informed sources asserted here.

Germany, Russia, Italy, and Portugal may be invited to join Great Britain and France in forming the coastal patrol, they said.

Ships of the fleet would carry foreign observers as a guarantee of impartiality in blockading shipments of munitions and men to either side in the Spanish civil war, reliable persons declared.

In authoritative quarters the plan was declared as scrapping all previous efforts of the international non-intervention committee and making a new start to isolate the Spanish conflict.

MOUNTAIN CLIMBER'S BODY RECOVERED IN SCOTLAND

Glencoe, Argyllshire, Scotland, Dec. 28. (AP)—The body of William Christie, which had dangled head down from a rope near the peak of a 3,000-foot mountain for more than 24 hours, was recovered Monday by five mountain climbers.

When the body was brought to the foot of the mountain just at nightfall, doctors said the man probably had been killed instantly when he fell.

The mountain climbers risked their lives in repeated attempts to reach the body of the 25-year-old climber.

They reached the lofty, wind-swept point from which Christie fell Sunday but the task of reaching him promised to be slow and hazardous.

Christie slipped in the snow and disappeared in a gully Sunday. He was gone some time before companions discovered him.

Unable to aid him before darkness fell, the others summoned help. Urgent calls were sent to expert mountaineers in Edinburgh and Glasgow, 100 miles away.

KIDNAPERS RELEASE SON OF AMBASSADOR FROM ECUADOR

Washington, Dec. 28. (AP)—The Ambassador of Ecuador, Señor C. E. Alfaro, reported to the State Department Monday that his 15-year-old son had been restored to his home after having been kidnapped by three unidentified men on Christmas night. He had been missing approximately five hours.

The envoy's son, Olmedo Alfaro, told his father he was strolling in the vicinity of the Army and Navy Club at about 10 p. m. Christmas night when he was accosted by three men who drove up in a closed automobile.

At about 3 a. m., the boy said, they ejected him from the automobile in the southeast section of the Capital. From there, young Alfaro made his way to a telephone and summoned his father, who returned him to their home in the Mayflower Hotel.

GASOLINE EXPLOSION IS FATAL TO WOMAN AND BABY

Center, Texas, Dec. 28. (AP)—A gasoline explosion fatally burned Mrs. Dewey Bates, 34, and her infant daughter, and injured critically four others Sunday near Joaquin, 18 miles east of here.

Betty Jo Plunkett, 5, and Mrs. Levon Guy, 26, were not expected to live. Dewey Bates and Levon Guy were seriously burned endeavoring to rescue their wives.

Dick Plunkett, father of the critically burned child, also tried to save his daughter and suffered burns about the hands and arms.

Investigators said Mrs. Bates accidentally poured gasoline from a can into a slowly burning fire of wet wood. She thought the can contained kerosene, they said.

Warm Holiday Weather.

Christmas week in Vernon was one of the warmest since early in October. The maximum of 69 degrees came on Friday, Christmas Day. The minimum at that time was 45. The lowest temperature recorded Saturday was 59. The maximum for the day was 65. The only time the mercury dropped below the freezing point was on Wednesday with a minimum of 30.

Goes to Manilla.

New York, Dec. 28. (AP)—Thronged bade homeward voyage to Cardinal Dougherty, of Philadelphia, as he left here in the liner Normandie for Rome en route to the Eucharistic Congress in Manilla, Feb. 2 to 7. Heading an American party of 30 persons, the Cardinal will be known at the Congress as the Pope's "legate a latere."

Golden Wedding Anniversary Is Observed Sunday

London, Dec. 28. (AP)—A six-power naval patrol, designed to "keep volunteers and arms out of Spain," is under consideration by British officials, informed sources asserted here.

Germany, Russia, Italy, and Portugal may be invited to join Great Britain and France in forming the coastal patrol, they said.

Ships of the fleet would carry foreign observers as a guarantee of impartiality in blockading shipments of munitions and men to either side in the Spanish civil war, reliable persons declared.

In authoritative quarters the plan was declared as scrapping all previous efforts of the international non-intervention committee and making a new start to isolate the Spanish conflict.

MOUNTAIN CLIMBER'S BODY RECOVERED IN SCOTLAND

Glencoe, Argyllshire, Scotland, Dec. 28. (AP)—The body of William Christie, which had dangled head down from a rope near the peak of a 3,000-foot mountain for more than 24 hours, was recovered Monday by five mountain climbers.

When the body was brought to the foot of the mountain just at nightfall, doctors said the man probably had been killed instantly when he fell.

The mountain climbers risked their lives in repeated attempts to reach the body of the 25-year-old climber.

They reached the lofty, wind-swept point from which Christie fell Sunday but the task of reaching him promised to be slow and hazardous.

Christie slipped in the snow and disappeared in a gully Sunday. He was gone some time before companions discovered him.

Unable to aid him before darkness fell, the others summoned help. Urgent calls were sent to expert mountaineers in Edinburgh and Glasgow, 100 miles away.

KIDNAPERS RELEASE SON OF AMBASSADOR FROM ECUADOR

Washington, Dec. 28. (AP)—The Ambassador of Ecuador, Señor C. E. Alfaro, reported to the State Department Monday that his 15-year-old son had been restored to his home after having been kidnapped by three unidentified men on Christmas night. He had been missing approximately five hours.

The envoy's son, Olmedo Alfaro, told his father he was strolling in the vicinity of the Army and Navy Club at about 10 p. m. Christmas night when he was accosted by three men who drove up in a closed automobile.

At about 3 a. m., the boy said, they ejected him from the automobile in the southeast section of the Capital. From there, young Alfaro made his way to a telephone and summoned his father, who returned him to their home in the Mayflower Hotel.

GASOLINE EXPLOSION IS FATAL TO WOMAN AND BABY

Center, Texas, Dec. 28. (AP)—A gasoline explosion fatally burned Mrs. Dewey Bates, 34, and her infant daughter, and injured critically four others Sunday near Joaquin, 18 miles east of here.

Betty Jo Plunkett, 5, and Mrs. Levon Guy, 26, were not expected to live. Dewey Bates and Levon Guy were seriously burned endeavoring to rescue their wives.

Dick Plunkett, father of the critically burned child, also tried to save his daughter and suffered burns about the hands and arms.

Investigators said Mrs. Bates accidentally poured gasoline from a can into a slowly burning fire of wet wood. She thought the can contained kerosene, they said.

Warm Holiday Weather.

Christmas week in Vernon was one of the warmest since early in October. The maximum of 69 degrees came on Friday, Christmas Day. The minimum at that time was 45. The lowest temperature recorded Saturday was 59. The maximum for the day was 65. The only time the mercury dropped below the freezing point was on Wednesday with a minimum of 30.

Goes to Manilla.

New York, Dec. 28. (AP)—Thronged bade homeward voyage to Cardinal Dougherty, of Philadelphia, as he left here in the liner Normandie for Rome en route to the Eucharistic Congress in Manilla, Feb. 2 to 7. Heading an American party of 30 persons, the Cardinal will be known at the Congress as the Pope's "legate a latere."

WANTED—White woman for housekeeper. Must be good cook. Apply Foreman's Dry Goods Store. 45-38

HOSPITAL BRIEFS

J. A. De Sha underwent an operation for appendicitis Sunday afternoon.

The baby daughter of Mr. and Mrs. A. J. Barker was admitted Sunday for medical treatment.

Carl V. King underwent an operation for appendicitis Sunday.

Junior Jordan underwent an operation for appendicitis Sunday.

Charlie Webb of Electra was reported as still in an unconscious condition Monday. He received a severe concussion of the brain Wednesday night when thrown from his motorcycle while passing through Oklahoma.

Rover Misjudges.

Decatur, Ga., Dec. 28. (AP)—Terrified into sudden flight by exploding firecrackers, a stray dog squeezed into a narrow space between two buildings. There he became wedged. Firemen and police failed to rescue him with ropes from above. Then they went to work on one of the brick walls. Eight hours of tunneling with the men working in shifts finally enabled them to reach the animal.

"They fit you and your budget, too!"

A gay new Spring collection of those famous wash crepes

"Suava Crepes," by Marcy Lee, offer new delights in smart lines....new beauty in print-colorings....and new thrills in vivacious styles for Spring. They are the kind of grand little dresses you will wear practically everywhere....and, as you know, they're Crown tested.....assuring washability, color-fastness, and plenty of wear. You'll want two or three on sight!

2.98

"MARCY LEE SUAVA PRINTS"

No. 465 (sketched upper left)—A spirited upper frock in maize, aqua, rose, and open with self tie. Sizes 14 to 20-2.98.

RECORD CROP IS PREDICTED

WORLD COTTON YIELD FOR 1937 EXPECTED TO BE LARGEST IN HISTORY

College Station, Dec. 28.—A survey of various grasses already growing on Texas ranges, conducted during the past year by the Texas Agricultural Experiment Station shows that buffalo grass not only has a wide distribution in Texas but is one of the most satisfactory grasses for much of the State's area.

It was estimated that cotton production in this country would be 1,800,000 bales larger than that in 1935-36. Foreign production, according to the report, is expected to be 1,600,000 bales larger than last season largely to the marked increase in 400,000 bales in the world cotton crop.

Foreign Gain Noted.

The increase in world cotton production in recent years was attributed largely to the marked increase in foreign cotton.

The production of cotton in the United States for the 1936-37 season, estimated at 12,407,000 bales, would be approximately 2,600,000 bales less than the average for the 10-year period from 1926 to 1932. Foreign production, estimated at 17,500,000 bales, would be 65 per cent larger than the 10-year average, and 41 per cent larger than the current United States crop.

At the beginning of the current season the world carry-over of all cotton was 12,200,000, the smallest carry-over in six years although it is 25 per cent larger than the 10-year average of 18,200,000 bales. Since 1932 the carry-over of American cotton has decreased 6,000,000 bales while that of foreign cotton has increased 1,100,000 bales.

"Prospective increases in the size of the current world crop," it was stated, "are large enough to offset the decrease in world carry-over to the extent that total world supply this year will exceed last year's by 1,800,000 bales, thus being the second largest world supply on record."

Last season's mill consumption of cotton was the largest in history and current improvement in world business conditions indicates that consumption will increase in the current season.

Consumption Up.

Practically all of the increase in the consumption of American cotton last year was in American mills, "But," the report states, "the outlook for world consumption of American cotton now seems less favorable because of the increased supplies of foreign growths and the decreased supplies of American growths. It is expected, however, that world consumption of American cotton will exceed the 1935-37 output, thus tending to reduce the carry-over of American cotton by next August to a point near the 10-year average."

It is indicated by the higher average of this year's cotton prices that the improvement in general business conditions has more than offset the effect of an increased world supply of cotton.

It was predicted that the income to American farmers from the sale of lint cotton, while expected to be the largest since the 1926-30 season, would be little more than half as much as it was on the average from 1925 to 1932.

CONTINUED IMPROVEMENT IN COTTON INDUSTRY SEEN

New York, Dec. 28, (P)—Dr. Claudius T. Murchison, president of the Cotton Textile Institute, Inc., looks forward to continuation of marked improvement in the cotton textile industry into the new year.

"Of course, in the background there are legislative uncertainties to reckon with, the unsolved problem of Japanese imports and the never-ending battle with competitive fibers and fabrics and other factors which complicate long-range forecasts," he said.

Dallas Physician Succumbs.

Dallas, Dec. 28, (P)—Dr. W. M. Livley, 72, prominent Dallas physician, died at his home Sunday after a heart attack. At one time he was connected with the Baylor College of Medicine. He is survived by his widow and three sons and two daughters. Funeral services will be held Tuesday afternoon.

Cochon on Spot.

Ann Arbor, Dec. 28, (P)—Fielding H. Yost, University of Michigan athletic director, died Saturday the athlete board was reviewing the Wolverines' football records and that there was a "possibility" that "some changes" might be made in the coaching staff.

RANGE GRASSES ARE STUDIED AT COLLEGE STATION

WORLD COTTON YIELD FOR 1937 EXPECTED TO BE LARGEST IN HISTORY

New Mechanical Cotton Picker Shown in North

First device of its kind shown north of the Mason and Dixon line, a new mechanical cotton picker, developed by International Harvester, is displayed in the top photo. Russell H. Miller of the Chicago Museum of Science and Industry is at the controls. The potted cotton plant shows where it enters the machine used to strip. At left, lower photo, is a closeup of the spindles which pick the cotton. They are heavy pins, with burrs on them. The plant is pushed past the pins, which strip the cotton and then it is taken off the pins by a set of rotating disks. At right, lower photo, is a rear view of the device. Parts of the machine, as indicated by numbers, are: 1, cleaner; 2, elevator; 3, conveyor; 4, spindles that pick the cotton, the plants passing out at left; 5, elevator.

PEST CONTROL IS DISCUSSED

USE OF ROTENONE-BEARING INSECTICIDES URGED IN FARM BULLETIN

College Station, Dec. 28.—In a report on prevention of insect injury to garden products issued recently by the Agricultural Experiment Station at College Station, farmers were warned of danger in attempting to control the pests with arsenical poisons. It was pointed out that the non-poisonous insecticides were more effective in killing worms and at the same time were not poisonous to human beings.

Among the most important of the non-poisonous insecticides are the rotenone-bearing compounds, obtained from the roots of certain plants such as the derris or cube. The compounds may be obtained as powdered roots but should be diluted or mixed with sulphur, clay, talc, or other non-arsenical carrier so that the material possesses from one-half to three-fourths of one per cent of rotenone when used in dust form.

The present cost of these materials is from 12 to 15 cents per pound.

The farmer may lower this cost by making his own mixtures, purchasing the powdered derris or cube and mixing with sulphur, clay, talc, or other non-arsenical carrier so that the material possesses from one-half to three-fourths of one per cent of rotenone when used in dust form.

The gross income during 1936 from Mr. Carmichael's flock was \$20,44.

Of this amount \$25,44 was from the sale of mutton and \$300 was from the sale of wool.

NEW YEAR'S STOCK SALE TO BEGIN THURSDAY HERE

A record breaking New Year's sale is predicted at the Vernon Live Stock Sales Commission Company's New Year's auction Dec. 31 and Jan. 1 by Si Thompson, president of the company.

Between 1,500 and 2,000 head of livestock is already booked for sale and buyers will be present from all parts of Texas and from many other states.

"The market for stocker cattle is exceptionally good in Vernon for several weeks and a strong demand for other classes of stock is also expected," stated Mr. Thompson.

Rome Tribunal Extended.

Rome, Dec. 28, (P)—The life of the special tribunal for defense of the State has been extended a second time by official decree. The order, published in the Official Gazette, added five more years to the court's existence, first established in 1926 after an attempt to assassinate Premier Mussolini at Bologna. The court hears cases of conspiracy attempted against the Italian Premier and King Victor Emmanuel.

SHEEP FOUND PROFITABLE BY ODELL FARMER

COLONIAL TYPE HOME OF WHITE OR CREAM COLOR PREFERRED IN TEXAS

That most farmers in Wilbarger County would find a small flock of sheep profitable has been demonstrated on several farms, according to the annual report now being prepared at the office of the Wilbarger County Agent.

Among Wilbarger County farmers who have found the raising of sheep profitable is John Carmichael of the Odell community.

In March, 1932, Mr. Carmichael purchased a flock of 22 sheep. By Nov. 31, 1932, the purchase price had been cleared from the sale of wool and a few lambs for mutton. A flock of 75 ewes is now kept on the Carmichael farm.

It has been noted by Mr. Carmichael that the quality of his sheep has been improved 50 per cent by the use of good rams.

The improvement in quality has resulted in an average wool production of 14 1/2 pounds of wool for each ewe, with some ewes producing as much as 25 pounds of wool in the past year.

The gross income during 1936 from Mr. Carmichael's flock was \$20,44.

Of this amount \$25,44 was from the sale of mutton and \$300 was from the sale of wool.

BLAIR CHERRY AWAITS OFFER

SANDIE COACH WANTS TOP POSITION WITH STEERS AT STATE UNIVERSITY

Dallas, Dec. 28. (AP)—Speculation as to whether Blair Cherry, maker of three straight championship schoolboy elevens for Amarillo High School, will remain at his post stirred the Panhandle Monday.

The Golden Sandstorm made it 86 triumphs against only five defeats in the seven years Cherry has directed Sandie grid fortunes by bagging their third title Saturday.

Seventeen thousand cheered Cherry's magic as his all-senior Sandstorm outmated Tivy of Kerrville, 19-6, in a thriller.

Sources close to the situation report Cherry, who filed a formal application for the head coaching job at the University of Texas, will not consider an assistant's post at the Austin school. It is the No. 1 position or nothing for him, sources said.

Other reports have his name linked with the Kansas University vacancy but no definite information would be given by Cherry himself. He is to be married Tuesday and will leave immediately on a three weeks honeymoon.

BRIEF BITS OF GOSSIP OF SPORTS WORLD TOLD

New York, Dec. 28. (AP)—Primo Carnera, pathetic prodigal of the ring, may come back from his native Italian hills on a strange and monstrous mission. An ingenious if fearless, New York theatrical manager has proposed using "Da Pezem" in a dancing act, with African female pygmies as the chorus . . . The victory needle, infected by football Coach Bernie Bierman, is making the Minnesota sports fan sick . . . Until the Gopher gridders began running wild, there was little complaint about Dave MacMillan's mediocre record with the Minnesota basketball team . . . But now the fans are yelling for his job, even before the Big Ten season is really started . . . MacMillan's Big Ten record is 37 won and 31 lost . . .

It took an auto accident to make Gil Dahlie drop his gloom . . . He's wheeling around his Boston home now smiling like a kid on Christmas . . . He's glad to be alive, that's all . . . Mickey Cochrane has told his ball players to leave their wives and sweethearts at home this Spring, and he's not kidding. Rumor around here is that "Boily" Grimes will appear Jess Haines, veteran Card's pitcher, as his second coach.

Football coaches are in town congratulating each other on holding their jobs . . . Mainly they tell stories, see shows, catch up on their self-pity, moan about the boys they lose next year, and shop around among the athletic directors just in case.

BRIGHAM YOUNG UNIVERSITY CO-EDS TALK ON CHIVALRY

Poco, Utah, Dec. 28. (AP)—Chivalry, assert the fair co-eds of Brigham Young University, is something to read about but not to expect.

Dixie Belnap, blonde, pretty and

from Rupert, Idaho, summed up sentiment of a recent poll:

"As long as women are given the same standing as men, they should expect to carry their part of the expenses and not wait for men to run their errands."

"Bank Nights" Hit.
Chicago, Dec. 28. (AP)—Police Commissioner James P. Allman issued an order Saturday effective immediately to prohibit "bank nights" and other drawings in all Chicago theaters.

New York, Dec. 28. (AP)—For making just one fistful appearance before the cash customers, Max Schmeling was nominated by "The Ring" magazine as the world's number one fighting man for 1936.

Der Maxie knocked out Joe Louis in his lone competitive start to win the top spot the Detroit Brown Bomber held for 1935.

Heavyweight Champion Jimmy Braddock was not called on to throw punches in competition and as a result was dropped to number three on the list.

Aside from Schmeling, the only other non-champion to top a division in "The Ring's" ranking was Benny Lynch of Scotland, who headed the heavyweight groupings. The National Boxing Association's titleholder, Small Montana of the Philippines, rated second.

Rankers put Schmeling in a group by himself among the heavyweights, with Louis and Braddock listed one, two in "group two."

Light-heavyweight King John Henry Lewis of Phoenix, Ariz., was listed alone in group one in his weight class, as were the middleweight titlist, Freddy Steel of Tacoma, Wash., and welterweight champion Barney Ross of Chicago.

In the lighter divisions, however,

the top punch-throwers apparently were regarded as more evenly bunched.

Lou Ambers, the Kerkimer (N. Y.) hurricane who dethroned Tony Canzoneri as lightweight champion a few months ago, was placed at the top of the 135-pounds, but grouped with him were five others, with Pedro Montanez of Puerto Rico, second, and surprisingly, Canzoneri in third place.

The magazine rated Petey Sarson in front among the featherweights. Mike Bellolio of New York was third, behind Henry Armstrong, the Los Angeles belter.

Champion Sixto Escobar headed the bantams, with Harry Jeffra of Baltimore second.

Among the flyweights, American-born batters were completely shut out. In group one, in order, were Peter Kane of England; Jim Warren, Ireland; Ernst Weiss, Austria; and Pat Palmer, England.

**GEORGIA TECH
STOPS BEARS**

The Yellow Jackets of Georgia Tech defeated the University of California Golden Bears Saturday afternoon, 13 to 7, as the public interest in football activities at the year's close turns to the various "bow" contests on New Year's Day.

The Bears staged a rally in the last five minutes to score one touchdown and came close to another after the Engineers had taken 13 to 0 lead.

Meanwhile, the Texas Christian University Frogs resumed practice for the Cotton Bowl game at Dallas with Marquette. The Marquette Golden Avalanche is in Dallas to complete training this week. Reports Sunday said only tickets outside the 10-yard line remained for the game, with a sell-out predicted.

At New Orleans, eleven members of the U. S. Olympic team were ready to launch the Sugar Bowl Carnival this week which will close with the football game between Louisiana State University and Santa Clara.

The Washington Huskies were on hand in Pasadena for the Rose Bowl event with the Pittsburgh Panthers. Both teams are "on location" and mapping final practice sessions for the annual game.

SEMI-PRO BASEBALL PLANS FOR 1937 MADE

New York, Dec. 28. (AP)—Individual pitching honors in the national league for 1936 went to Southwark Carl Hubbell of the New York Giants and Dizzy Dean of the St. Louis Cardinals. The laurels for group performance were captured by the Chicago Cubs mound staff.

Wagner, now high commissioner of semi-pro baseball, said the all-star teams will be selected at tournaments to be held in every state. Each team will include 16 players.

He said the All-American nine would be chosen by major league scouts at the national semi-pro tournament in Wichita, Kan., Aug. 13 to 23, and would tour Hawaii playing exhibition games.

Wagner also announced appointment of commissioners to supervise State tournaments. They include Ray Brooks, Portland, Ore.; A. H. Kirksey, Waco, Texas; John Morris, Phoenix, Ariz.; and Mack R. Evans, Oceanside, Calif.

Without adjustment either for the number of working days or for seasonal influences, November sales for the 2 states were almost 8 per cent lower than for October 1936. There were three more working days in October than in November.

Ten of the kinds of business for which separate data are shown, registered gains from last year, while three showed declines. The greatest increase was shown by lumber and building materials dealers, with a 22 per cent gain. This was followed by furniture stores, with an increase of 17 per cent, other changes ranging down to the 4½ per cent drop shown in filling station sales.

HUSKIES PRACTICE IN SHADOW OF ROSE BOWL

Pasadena, Calif., Dec. 28. (AP)—Gridiron machines of the University of Pittsburgh and University of Washington began the final stages of practice Monday for their encounter in the twenty-second consecutive edition of Pasadena's Rose Bowl football attraction New Year's Day.

The Washington Huskies, led by Coach Jimmy Phelan, trotted out on Brookside Field Monday within the shadows of the huge Rose Bowl for their first practice on local soil after a week of conditioning at Santa Barbara.

Pitt remained at its Arrowhead Springs hide-out at San Bernardino and Coach Jack Sutherland, continuing to juggle around for a starting lineup, said he would bring his squad here Thursday morning, take a light workout in the Bowl and stand ready for the game the next afternoon.

Polo Game Delayed.

San Antonio, Dec. 28. (AP)—A soggy field Sunday caused postponement until Saturday of the polo series opener here between teams of the Mexican and United States armies. The Mexican team also will meet the Austin polo club riders Tuesday and Sunday.

FORMATION OF NEW GROUP IN HIGH SCHOOL LOOP FOR FOOTBALL SEEN

The Golden Sandstorm of Amarillo rules the Texas Interscholastic League for the third straight year, defeating the Tivy High School Antlers of Kerrville, 19 to 6, Saturday afternoon.

The Sandies almost were outplayed, but a slashing right-end, Michael Sweeney, blocked two Kerrville punts for touchdowns. The blocked punts stunned the South Texans, who were robbed of touchdowns on two occasions after reaching the 5-yard line and the 2-yard line.

The Antlers gained 16 first downs to seven for the Sandies, gained only a yard less than the Sandies' 159 yards in scrimmage and outpassed the Amarillo eleven by 121 to 23 yards.

Sweeney blocked punts in the 25 and 16 yard lines, recovering one himself and Toombs recovering the other.

McCaleb, not the heralded Holbrook, was the last of the Kerrville offense. He kept the throne amazed throughout with a change of pace that had Sandies diving for him just after he had been there. He snatched passes, intercepted passes, played a man-sized defensive game in the secondary and deserved the terrific roar that accompanied his departure from the field a minute before the game's end. Holbrook did a magnificent job of knifing the line and pass throwing before he voluntarily removed himself because of an ailing knee in the final period.

Back of Amarillo's line, dropped into the secondary on the defense because of a broken hand encased in bandages, Bill Kilman, giant guard, constantly broke up passing plays and cut down runners with his good arm. He shared defensive launders with Hieman, rangy Kerrville end; Hauser, Antler center, and Edwin Ricketts, Amarillo tackle.

Starting from the Kerrville 34, Cleson cracked left tackle for 11 yards and Wild Horse Mayes tacked on five more on an end sweep. Cleson faked a pass and carried to the nine. The Wild Horse broke away around left end and went over standing up.

A bit of strategy by A. Coleman, Kerrville lineman, finally brought the Antlers a touchdown. Toombs intercepted one of Holbrook's passes and ran it 20 yards before Coleman tackled not Toombs, but the ball he carried loosely in his arms. It was Kerrville's hell on the Sandie 43 and Holbrook's 15-yard pass to Rust, Antler end, started the drive. Chambliss stood at the scrimmage line and took a screen pass to the 13 and Holbrook followed up with a beautiful spot pass that found Rust waiting in the five-yard marker. He turned and jogged across for the score.

MASTER PLAN FOR STATE PARK DEVELOPMENT READY

Austin, Dec. 28. (AP)—William J. Lawson, secretary to the State Parks Board, said Saturday a master plan for 35 parks and 14 approved sites had been approved by the National Park Service, Department of the Interior.

The plan programs work of development in each park, the bulk of which is done by the Civilian Conservation Corps.

Picnic areas, road systems, clubhouses, beaches at lakes, swimming pools, rental cottages and even golf courses were included in the improvement plan. Many of the State's wildlife sanctuaries are in the parks.

The parks range from 500 to 15,000 acres in area, title to the land being held by the State Board and the Federal Government, expending approximately \$100 to the State's \$1 for development. Texas appropriated \$30,000 for the biennium ending Aug. 31, 1936, which was used for administrative and supervision purposes only.

Lawson said revenue from cottages, clubhouses and amusements was used for improvements in parks where it was produced.

COWBOYS "GO MODERN" IN ANNUAL COYOTE ROUNDUP

Encino, N. M., Dec. 28. (AP)—The rumbler of radiators replaced the clatter of hooves on the range near here Monday as a bunch of cowboys "went modern" by using automobiles instead of horses for their "first annual coyote roundup."

The entrants in the three-day event, which got off to a flying start Sunday, need all of the great wide open spaces for the tournament, for the coyotes were paced as fast as 40 miles per hour and one or them eluded his "mechanized" pursuer for 14 miles.

"Old Dix," working in 51 games for a total of 315 innings, saw more duty than any other moundman. The amazing part of it is he posted an earned run average of 3.71, not far behind Hubbell. He pitched 28 complete games, to lead the league and shade Hubbell by three games. But Dean's 24 wins and 13 lost was good for a percentage of only .649 as compared with Hubbell's .813.

ITALIAN PRINCESS CENTER OF INTEREST ON BIRTHDAY

Rome, Dec. 28. (AP)—Vivacious, black-eyed Princess Maria, youngest daughter of King Victor Emmanuel, was 22 years old Saturday and Italy wondered whether her shower of birthday messages included a billet doux from the Archduke Otto, Hapsburg's legitimate.

Rumors that Maria is destined to become Otto's bride whenever the 24-year-old pretender also can make her queen of Austria have been current for a long time.

Persons close to the royal family are convinced announcement of the betrothal awaits only a settlement favorable to Otto of the monarchial question in his homeland. He still awaits "the call" at Castle Steenokkerzel in Belgium.

REVIEW OF NORRIS CASE ASKED BY GOVERNMENT

Washington, Dec. 28. (AP)—The government Saturday asked the Supreme Court to review a Circuit Court decision reversing the conviction of George W. Norris, former Broken Bow, Neb., grocer, convicted of perjury in connection with his 1930 campaign against Senator George W. Norris.

The grocer was fined \$100 and sentenced to jail for three months after he testified before a special Senate investigating committee that he had paid no money for his efforts to wrest the senatorial nomination from the veteran legislator of the same name.

MINNESOTA-NORTHWESTERN PICTURE HOLDS INTEREST

Chicago, Dec. 28. (AP)—The 6 to 0 upset of Minnesota by Northwestern's grid team last Fall is still packing 'em in.

Kenneth L. (Tug) Wilson, Wildcat athletic director, reports that the film of the game is in constant demand by alumni clubs and other organizations and is one of the most popular grid films ever taken by Northwestern.

NAVAL HOLIDAY COMES TO AN END.

But the Treaties Gave the Taxpayers a Rest and Cemented British-American Friendship.

With the end of this year limitation of naval power among the major nations will come to an end. The Washington treaty of 1922 and the London agreement of 1930 will give way to a much less detailed treaty on the general subject of limitation of naval armament, provided Britain, France and Italy ratify. The United States has ratified this supplemental agreement. Its chief value is in the provision for certain standardization of construction and the skeleton machinery for discussion of future naval questions.

Apparently the fatal defect of the Washington treaty was the failure to recognize the possibility of disturbing the balance of naval power from building programs on the part of nations not included in the major agreement. Great Britain, the United States and Japan as the chief naval powers made an agreement limiting naval strength as between themselves. It was thought this would prove effective. France was concerned with land armament. Germany was thought to be permanently hobbled and Italy seemed content to occupy the role of a secondary power.

All that changed and the major powers found their naval supremacy threatened by the construction of large numbers of light, speedy vessels by Germany, France and Italy. There is a well-authenticated story that the reason England backed down from enforcing sanctions against Italy in the Ethiopian affair was the realization that Italy had a sufficient number of small, fast ships of various types to destroy the British fleet in the Mediterranean. A torpedo can blow up the biggest ship afloat and Italy had literally hundreds of torpedo carriers little larger than fishing skiffs.

The big three—Britain, Japan and the United States—had to revise their naval program. Japan was first to announce withdrawal from the agreements, but it is certain that the others would have done so very soon.

The new year brings the world to a revival of naval competition and some will view the efforts of the past as of little value. But that is incorrect. A respite in naval construction eased the pressure of post-war finances. It made a tremendous saving for fifteen years, and doubtless that achievement will serve as a powerful argument for other agreements as soon as the nations realize the folly of attempting to outstrip each other in naval strength.

The most important single result of the treaties, however, is the strengthening of the ties between the United States and Great Britain. Britain renounced her long standing alliance with Japan and conceded naval equality to the United States, something which had never happened in the history of the British Empire.

COSTS OF HOSPITALIZATION.

County Is Now Paying More for Care of Its Cases Than Total Cost of Operating Institution

In deciding what should be done with regard to the County hospital question many are naturally interested in the matter of cost. Taxpayers are naturally concerned at this point and many wonder whether the assumption of this obligation will require levy of taxes in any substantial amount above what is being paid at the present time.

From the report of the committee named by the Commissioners Court and from other evidence brought to light in the public statements on the question some conclusions can be drawn. Last year the County spent \$11,097.94 for hospitalization of charity cases. The previous year the cost was \$8,876.90 and for 1933 it was \$5,029.17.

Two facts stand out in consideration of these figures. The demands for this kind of service are increasing and, notwithstanding the improvement in business conditions making employment more easily obtained, Wilbarger County was called upon in 1935 to pay twice as much for hospital services as was paid for this service in 1933. This leads to the belief that, whether we like it or not and for reasons which need not be discussed here, this is a permanent and perhaps a growing obligation which the County taxpayers must meet.

The question naturally arises as to the best means of meeting it. The County is now paying more money for hospital service than the total cost of operating a hospital of the size proposed to be taken as a gift from Dr. T. A. King. This means simply that the County with prudent management could own and operate its own hospital and take care of more cases than are now being handled at no increase in the amount now being paid for hospital services. It is reasonable to believe that the hospital cost of the County could be reduced below what is now being paid.

Much comment is made in the fact that the Wichita County hospital operates at a heavy loss each year. But no one suggested that Wichita County taxpayers would save any money by closing the County hospital and sending County cases to other hospitals. When all factors are considered, it is doubtful if Wichita County is paying any more in proportion for hospitalization than is Wilbarger County. But experience in a number of counties with about the same population as Wilbarger County shows that a county hospital can be operated without loss to the taxpayers.

The Island of Guam recently experienced 67 earth tremors in 24 hours, and not one of them was caused by a police force shakeup.

British medical circles are interested in a Londoner with a "heart of stone." Could it be cupid's foe, the premier?

LABOR DRIVE . IS TRACED

LEADERS SEEK EXTENSION OF GAINS CLAIMED UNDER NEW DEAL

Washington, Dec. 28. (P)—Counting on strong support from President Roosevelt, organized labor leaders soon will start a big push on legislative and industrial fronts to extend gains labor claims under four New Deal years.

John L. Lewis, president of the United Mine Workers, expects to bring his organization drives in steel and automobiles to a head before next Summer. Most labor men feel strikes in both industries are probable.

Lewis must meet the soft coal operators to renew his own contracts that expire April 1. The soft coal industry has been sick economically for many years. Any demand for an increase in labor costs will meet stiff opposition. A coal strike may be called before the miners and operators agree to terms.

The American Federation of Labor is planning an intensive organization drive in industries other than those marked out by Lewis. Widespread strife is possible if this drive assumes any sizeable proportions.

The craft-industrial union dispute, popularly known as the scrap between Lewis and William Green, A. F. of L. president, will continue through the Winter. With more or less publicity, it has gone on for half a century. Some labor students predict it will continue long after both Green and Lewis are only figures in history.

(Lewis and his Committee on Industrial Organization favor organization labor by industry as opposed to organization by crafts extending through several industries).

The American Federation of Labor will ask adoption of a five point legislative program:

(1) The Wagner billion dollar housing bill to provide cheaper rent for low income workers.

(2) The O'Mahoney industrial licensing bill to require corporations dealing in interstate commerce to conform to Government-fixed labor standards.

(3) The Black-Connery 30-hour week bill.

(4) Amendments to the Walsh-Hayes Government contract act to expand that measure to cover all Government purchases. Government-fixed labor standards now are required for contractors for sums larger than \$10,000.

(5) Amendments to broaden the scope of the Social Security Act and to increase its benefit payments.

TRUCK DRIVERS MAY AID SEAMEN IN NEW YORK

New York, Dec. 28. (P)—Striking maritime workers looked for support Monday from rank-and-file truck drivers who promised to back picket lines along the waterfront.

The strikers won support of insurgent members of the Teamsters' Union Sunday at a meeting preceded by a lively series of fist fights attributed to union dissension.

Opponents of the strike sought to prevent teamsters from meeting with the seamen led by Joseph Curran, and emergency police squads were summoned to quiet the disturbance.

LABOR LEADERS PROTEST NEW FEDERAL REGULATION

San Francisco, Dec. 28. (P)—Protests of union leaders against a new Federal law affecting seamen Monday threatened to complicate the 60-day Pacific Coast maritime strike.

The shipowners' committee, inter-

preting at least one of the protests as a defiance of Federal authority, suggested in telegrams to President Roosevelt and other officials that the Government take action.

C. H. Jordan of the San Pedro strike committee was quoted in the telegram as declaring no settlement was possible if the seamen are required to return to work under the Copeland bill.

The bill, passed by the last session of Congress, would require seamen to carry "discharge books" showing complete records of their employment after Jan. 20.

Interpreting opposition to the legislation as evidence of "intention to fight constituted authority," the shipowners' committee said in the telegram to the President: "The time has come for our Government to realistically deal with the imperial vision of certain Pacific Coast maritime union leaders."

STATE LABOR PLANS TALKED

ADMINISTRATION STUDIES NEW WAYS TO OBTAIN GOAL OF NRA

Washington, Dec. 28. (P)—Ways to bring about adoption of minimum wage and maximum hour standards in all the States, rather than attempting another NRA, are being studied within the Administration.

Members of Congress arriving in greater numbers Monday for the session to convene next week found that subject among the foremost at the Capitol.

While President Roosevelt has kept his views to himself, some leading Democrats evidently do not expect him to side with advocates of an immediate attempt to amend the Constitution or to curtail the powers of the Supreme Court.

They predicted he would discuss the problems of spreading employment and purchasing power at least broadly in his opening message to Congress or in his inaugural address, but might let detailed recommendations await reports being prepared.

Committed to pursuit of NRA objectives, the Administration has met difficulty in devising specific methods.

NEW ARRESTS MADE IN VERMONT BANK INQUIRY

Rutland, Vt., Dec. 28. (P)—Governor Charles M. Smith and other officers of the Marble Savings Bank who were arrested some time ago in connection with the concealment of theft at the bank, were re-arrested Monday on charges of violating the banking laws.

Those arrested besides the chief executive, who is president of the bank, were: Lathrop H. Baldwin, treasurer, recently convicted of perjury in the case; Samuel A. Howard and Bert L. Stafford, trustees; Stafford and Howard have not been tried in the previous cases.

The actions are outcomes of the defalcations of a former bookkeeper John J. Cocklin, now serving a State prison sentence for the theft of bank funds.

The charges brought against the quartet Monday were that they failed to make semi-annual audits of the bank's books and report to the trustees on such audits, and that they failed to mention Cocklin's defalcations.

The actions are outcomes of the defalcations of a former bookkeeper John J. Cocklin, now serving a State prison sentence for the theft of bank funds.

BEGIN HERE TODAY

The gaiety of the Christmas party at "Thunder Mesa," the de Forest hacienda in New Mexico, has a tragic ending when PEARL SAM DE FOREST, oldest of three brothers, is found dead with a knife through his throat.

Each of the de Forest brothers has the first name of "Pearl." PEARL JOHN is the youngest; PEARL PIERRE next. Others at the house are: TANT JOSEPHINE, old and invalid; BETTY WELCH, her young companion; RAMON VASQUEZ and ANGELIQUE ABEYTA, guests at the party; PROFESSOR SHAW, archeologist; and BOB GRAHAM, fire salesman who stopped at the hacienda when his car broke down.

Pearl Pierre, now head of the family, has his brother's body removed to the house chapel. The entire group assembles there for funeral services and is shocked to find that the body has disappeared.

That night Bob sees two figures moving away from the house, one obviously following the other. He tries to find out who they are, learns that all of the men except himself, are away from the house. NOW GO ON WITH THE STORY

CHAPTER XI
One by one, the men drifted back

"As a man of science, I recognize, of course, the near hysteria everyone in this household has been feeling. But about the work on the old pueblos—are you interested as most of the tourists are or does research really mean something to you?"

"It interests me so much, Professor Shaw, that I've put in several months excavating in this neighborhood and when Pearl John de Forest told me, in Santa Fe, about Thunder Mesa, I wanted an invitation out of him to come up. I'm trying to get my notes on my work in shape now to be published. That's why it caught my attention when you said you'd been looking around up here."

"Ah!"

The professor glanced at him sharply, and Ramon could not be sure whether he was pleased or not.

"Then you're not just a dabbler

—a collector of arrowheads. I didn't think you were interested in archaeology, somehow. Young people are generally looking forward, not back into the dim ages of antiquity. So you thought Thunder Mesa might be interesting, eh?"

"Yes," answered Ramon, "I was glad to come here, though of course, I didn't expect I'd be stepping into a murder mystery. But that obsidian knife caught my attention. I was interested when you said it probably had some religious significance. Have you found any signs of old Indian pueblos on this mesa?"

"Oh, yes," answered the professor. "At one time, there must have been a great many people living here in what was probably a very extensive pueblo. Of course, you know the Indians liked to build on high places, especially an elevation like Thunder Mesa which has only one trail down to the plains below."

"Protection against enemies and all that," Ramon offered the professor a cigar. "And there's plenty of water here, apparently."

"Yes. This house is built on the foundations of the main pueblo, and the hacienda well is the same one the Indians used. But I've been unable to make any first hand examination of the ground plan of the pueblo, for the house basement seems to have been constructed right over it, and the present owners are not at all interested in tearing up the floor of their cellar to further archaeological knowledge. That perhaps is not astonishing when you come to think about it."

"I suppose not," Ramon agreed, with a smile. "I can't imagine any of the de Forests allowing much excavation to be done under their floor boards. But the sacred knife must have come from right here, then?"

"I'm not sure about that," Professor Shaw said. "They never would say. Claimed they didn't know, in fact, but if I could determine that point it would be an important step forward in our knowledge of the early inhabitants of this continent. There certainly is not another knife just like it in existence."

"Why don't you ask the Indian servant about it?"

"I've tried repeatedly, but he only shakes his head and pretends he doesn't understand, though I hear he is connected in some way with the tribe which lived here originally."

The professor rose. "Haven't I answered any of the things you wanted to know? I'm sure I haven't told you anything of the family would not have been willing to tell you, if they didn't have so much else on their minds just now."

"That's just it," Ramon answered

quickly. "You see, as a guest in the house, it would do any harm to any family, as I have, for any length of time and not be convinced that anyone is only interested in the artifact, not one of them had sufficient cause to be interested in solving a murder mystery. We may be forced to murder if a little extra pressure were brought. It's the most interesting group of people I ever came in contact with. A group whose naturally strange dispositions are

Ramon agreed, remarking that Pearl John seemed rather a decent chap. Then he asked if the professor had seen the obsidian knife since the murder.

"No. But I suppose it has been returned to the safe where it was kept," the professor said. "I didn't want to mention such a painful subject to either of the brothers, but I have worried about the artifact easily be mislaid or cast aside with a feeling of repugnance."

To Be Continued

time and not be convinced that anything I'm not supposed to have any interest in. But ever since I came, I've wondered about this place, and in view of what's happened, I'm not so sure the whole thing isn't knit together in some way. Tell you what, Professor—suppose we work together."

"You think, then, that it was some member of the household and not one of the outside guests?" Ramon asked.

"Not the slightest doubt about it."

The professor's tone was positive.

"No one could live here with the others."

NEW LEVIES FACE TEXANS

TAXES ON ENTERTAINMENT
EFFECTIVE THIS WEEK
UNDER STATE LAW

Dallas, Dec. 28. (P)—Heads of Texas households with a penchant for amusement and a few luxuries must figure in their 1937 budgets a new item—the State's "cut" on practically every expenditure for entertainment.

It will be paid in driblets, pennies here and there, but when books are closed on the 12-month period beginning next Friday those little acorns will have grown into sizeable oaks.

The man who pays for two packages of cigarettes a day; buys a pint of liquor a week; a bottle of beer now and then; takes his wife to a good movie once a week; goes dancing twice a month, and spends \$20 a year for race, opera, football or other tickets, will pay the treasury approximately \$38.95 in 1937.

If he bets on the races, plays marble machines or borrows money from the bank, up goes the total.

The Texas Legislature, which at various times has passed bills making illegal nearly every form of amusement, turned to most of these taxes during its last session in a frantic effort to meet demands of the old age pension amendment.

It wasn't a new idea. Napoleon taxed "vices" to finance his wars. He said "vices" had strong backs and could stand it. The United States Government did the same thing during the World War.

Virtually the beginning of the modern taxation system was when French and English peasants paid taxes for the "luxury" of staying at home during the crusades. In the late 18th century the British paid exorbitant taxes on hair powder and men servants.

The Boston tea party flamed because of a tax on tea, a luxury to the colonists.

All in all, however, taxes on alcohol, tobacco, gambling, amusements and luxuries of all sorts have been relatively easy to collect, chiefly because of the difficulty of organizing opposition. In some instances interests have been quite willing to pay high taxes to stifle activities of reformers who would legislate their activities out of existence.

So in Texas these taxes will probably flow smoothly into the treasury with a certain poetic justice in that those who used to pay the piper now pay the pensioner—and can afford it.

COSDEN STOCKHOLDERS FORM
PROTECTIVE COMMITTEE

New York, Dec. 28. (P)—Formation of a committee for protection of common stockholders in a projected reorganization of the Cosden Oil Company was announced Sunday by C. Shelly Carter, chairman of the committee.

Other members are Curtis B. Dall, J. Fred Pierson and Peter Cohn.

The committee was organized under 71B proceedings in Federal Court at Fort Worth, Texas.

Carter said:

"It is the committee's purpose to seek participation in the reorganization proceedings at Fort Worth and promptly to submit a plan of reorganization. A representative of the committee will appear at the hearing on Jan. 22 at Fort Worth on the recently proposed plan, underwritten by representatives of first mortgage bonds, and which plan appears to continue the old management."

FLOOD WATERS HALT TRAFFIC
ON HIGHWAY NEAR CORSICANA

Corsicana, Texas, Dec. 28. (P)—Traffic over Highway 70 between Ennis and Corsicana was halted shortly after noon Sunday when flood waters of Richland Creek covered the pavement several feet.

Highway maintenance officials said the water was still rising late in the afternoon. The high water followed heavy rains over the creek's entire watershed Saturday night. Rainfall here was 1.35 inches and several smaller creeks were out of their banks.

Traffic for Dallas and Fort Worth was being re-routed by way of Athens and Waco respectively.

COLLEGE ATHLETES MAKE
GOOD AS PROSECUTORS

New York, Dec. 28. (P)—Lamar Hardin, United States Attorney, said Sunday that among his most able assistant prosecutors are former college athletic stars.

Militarists have noted the seeming inefficiency of the airplane, both to gain military objectives and to throw populations into panic. They do not deny the important role of aviation in the Fascist advance to Madrid, unopposed for the most part.

But they point out the failure of the insurgents' planes, despite vast amounts of explosives dropped, to blast away the Capital's defenders.

Large quantities of foreign brick are arriving in New York.

BRAIN STUDIES GET INTEREST

GENERAL DISTRIBUTION OF
INTELLIGENCE NOTED
IN NEW REPORT

Atlantic City, N. J., Dec. 28. (P)—The seat of intelligence was traced to the whole human brain, rather than to any part, in a new kind of human brain studies reported by Dr. Harold M. Hildreth, of Syracuse University, to the American Association for the Advancement of Science at the opening session of its convention Monday.

Animal brains have indicated intelligence is probably generally distributed, and that one part of the brain can sometimes take over the job of another part, but this has not been heretofore proved for humans.

He reported on 247 humans with brains partially destroyed by disease, the damage, he said, was haphazard, one of several areas being affected, with no uniformity in where the disease struck.

The brain injuries were due to syphilis or to atherosclerosis, a type of hardening of the arteries. The resulting diseases included paresis, sclerosis and various effects of syphilis.

In all cases, Dr. Hildreth said, these persons showed lowered intelligence tests on the Stanford-Binet scale.

Whatever part of the brain was affected made no apparent difference in the lowered intelligence. Each brain apparently was operating like a unit on intelligence tests.

LOCAL BRIEFS

Miss Lillian Bacon left Monday for Breckenridge, where she will be a guest of Mr. and Mrs. Turner Bacon. Mr. Bacon is her brother.

Mrs. G. L. Tanner and sons, Billy and Warren, and her sister, Miss Dorothy Eakle of Dallas, spent the week-end with their mother, Mrs. Lillian A. Eakle, and other relatives.

Mrs. R. P. Parker and granddaughter, Dolly Ann Littlefield, of Croshyton spent Christmas in the homes of Mr. and Mrs. V. H. Weekley and Mr. and Mrs. M. L. Bonner. Mrs. Parker is the mother of Mrs. Weekley and Mrs. Bonner.

Miss Bernice Lee has returned from Wilson, Okla., where she spent Christmas with relatives.

Ray Wells, Jr., has returned to Wichita Falls after spending the week-end here with his parents, Mr. and Mrs. O. R. Wells.

Mrs. M. G. Dye and daughter, Pat and Helen, of Kilgore are visiting Mr. and Mrs. H. S. Davis at the Wagoner Camp during the holidays. The Dye family formerly lived at Thalia, where Mr. Dye was employed by the Shell Petroleum Company.

Miss Shirley Odum of Wichita Falls spent Christmas here with her mother, Mrs. Rosie E. Odum, and other relatives.

Strange Bedfellow.

San Diego, Calif., Dec. 28. (P)—Mrs. Camille Jordan noticed the front door ajar in the cottage of a neighbor who was away. Investigating, she found a stranger in bed, staring at her. She called police. Intrepid officers warily closed in on the bedroom, brusquely barked at the stranger. No answer. They shook the bed. Onto the floor rolled a wax model head—of Jesse James. Police decided the dummy had been planted to frighten thieves.

Steadily increasing equipment from abroad has modernized the warfare since the first hectic days, before a hoped-for coup d'état stretched out into a fairly large scale war.

New defensive strength imported from elsewhere in Europe appears frequently to nullify new offensive power obtained from similar sources.

But the unusual still prevails—bombing planes of latest design blasting Madrid with high explosives while soldiers battle hand-to-hand in slimy sewers.

New anti-tank guns firing effectively at tough, new armored cars while bottles of gasoline hurled by Moors set them afire—anti-aircraft guns, working in units and firing concurrently by electric control and planes still being shot down by rifle fire.

These contrasts only serve to intensify, however, the amazing developments of the war.

From pitchfork to machine gun—from crude dynamite bomb to modern hand grenade. From artillery fire so poor one out of five shells exploded to cannonading accurate within inches.

Militarists have noted the seeming inefficiency of the airplane, both to gain military objectives and to throw populations into panic. They do not deny the important role of aviation in the Fascist advance to Madrid, unopposed for the most part.

But they point out the failure of the insurgents' planes, despite vast amounts of explosives dropped, to blast away the Capital's defenders.

Even if other remedies have failed, don't despair, said your dentist is authorized to prescribe Creomulsion, and to refund your money if you are not satisfied with results from the very first bottle. Get Creomulsion right now. (Adv.)
